

BOTTLEX® Dental Unit Water Bottle Cleaner
SDS Revision Date: August 16, 2022

SAFETY DATA SHEET

Section 1: Identification

Product Name: BottleX®
Product Use: Dental Unit Water Bottle Cleaner

EPA Registration Number: 85298-2
CAS-No: Not applicable – product is a mixture

Manufacturer/Supplier: Anodia Systems, LLC
109 Larrimore Lane
Danville, KY 40422
www.AnodiaSystems.com
info@AnodiaSystems.com

Manufacturer Phone #: 866-246-2548

Medical Emergency Phone #: 1-800-222-1222 (Poison Control Center)

Section 2: Hazard(s) Identification

Ingredients No Known Hazardous Ingredients

Section 3: Composition/Information on Ingredients

Component	CAS-Number	Weight %
Chlorhexidine Gluconate	18472-51-0	0.12%
Denatured Alcohol	64-17-5	Proprietary Trade Secret *

*The specific chemical identity and/or exact percentage (concentration) of this composition has been withheld as a trade secret.

Section 4: First-Aid Measures

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If inhaled directly: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If swallowed: Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Call a poison control center or doctor immediately for treatment advice. Do not give anything to an unconscious person. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Section 5: Fire-Fighting Measures

Section 8: Exposure Controls/Personal Protection

Engineering Controls: None required

Personal Protective Equipment (PPE)

Eye Protection: Wear safety glasses. Use eye wash station when there is eye contact.

Skin Protection: Wear gloves

Respiratory Protection: None required

Section 9: Physical and Chemical Properties

Flash Point	45°C (113°F) [Test Method: Closed Cup]		
Flammable Limits:	Lower 3.3% upper 19%		
Boiling Point:	88°C (190°F)		
Specific Gravity:	~1.00	Water Solubility:	Very soluble
Odor:	Mild Mint	Physical State:	Liquid
pH	6.5	Evaporation Rate:	~1.90
		Appearance:	Blue liquid
		Vapor Density:	Not available

Composition Comments:

- The ingredients are present in Non-hazardous concentrations.
- BottleX does not come in contact with Amalgam (Mercury residue) when Following BottleX's EPA Approved Directions for Use.
- BottleX is Compliant.

Section 10: Stability and Reactivity

Stability: Stable
Incompatibility: Oxidizing materials
Hazardous Polymerization: Will not occur
Conditions to Avoid: Keep away from heat or ignition source

Section 11: Toxicological Information

Acute Eye Irritation: Minimally irritating; Category 4
Acute Dermal Irritation: Non-irritating; Category 4
Dermal Sensitization: Non-irritating
Acute Inhalation: Unlikely to be irritant in normal use
Ingestion: Unlikely to be irritant in normal use. If amounts of over 8 ounces are directly ingested, it may cause irritation. Refer to Category 4 "First Aid Measures".

Section 12: Ecological Information

When used for its intended purpose this product should not cause adverse effects in the environment.

SAFETY DATA SHEET

Section 13: Disposal Considerations

Comply with local disposal laws and regulations. Waste liquid of product should be diluted with large quantities of water. Recommended to rinse bottle with water and recycle. Do not reuse bottle.

Section 14: Transport Information

Product is not regulated. Product is individually packaged and contained in non-bulk packaging during transportation. In accordance to U.S. Department of Transportation (DOT) 49 CFR § 171.8, non-bulk packaging means a packaging which has: (1) A maximum capacity of 450 L (119 gallons) or less as a receptacle for a liquid; (2) A maximum net mass of 400 kg (882 pounds) or less and a maximum capacity of 450 L (119 gallons) or less as a receptacle for a solid; or (3) A water capacity of 454 kg (1000 pounds) or less as a receptacle for a gas as defined in §173.115 of this subchapter. Product is only produced and distributed in individually non-bulk packaging.

In accordance to U.S. Department of Transportation (DOT) 49 CFR § 171.8, bulk packaging means a packaging in which the product is contained in (1) A maximum capacity greater than 450 L (119 gallons) as a receptacle for a liquid; (2) A maximum net mass greater than 400 kg (882 pounds) and a maximum capacity greater than 450 L (119 gallons) as a receptacle for a solid; or (3) A water capacity greater than 454 kg (1000 pounds) as a receptacle for a gas as defined in § 173.115 of this subchapter. Product is not available in bulk packaging.

Product is not subject to the regulations of USDOT/PHMSA or IATA when transported within the United States or internationally by any mode since the product is transported in individually non-bulk packaging and is not a hazardous substance, not a hazardous waste and not a marine pollutant in accordance to U.S. DOT, 49 CFR.

Section 15: Regulatory Information

Product is not hazardous.

Section 16: Other Information

Note: The information in this SDS was obtained from sources which Anodia Systems, LLC believes are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. If the product is used as a component in another product, this information may not be applicable. Regulatory requirements are subject to change and may differ from one location to another. It is the buyer's (or user's) responsibility to ensure that its activities comply with Federal, State and Local Laws.
